Binance Community Bot Add-On

User Guide V2 .0

Start a private chat with the bot, as most of the functions are in Private Chat

User Profile

Command: **/start**

vip=0

This command looks up user profile in the private chat.

VIP Level – This determines how much function you can use.

- VIP0 – You can only use the /start command
- VIP1- You can use the /ui command to create a draw
- VIP10-You can set vip level of other users

Coin Balance – All coins acquired from previous draws

Available Draw – draw under your ownership, which can be sent to public channel with /draw command.

First Row Buttons – Language settings

Second Row Buttons – Register Binance wallet and Binance account, for retrieving coins (currently disabled)

Third Row Button – Refresh your account

Admin Function - VIP

Command **/vip**

Requires vip10

First, Forward another user's message to the bot

The bot will display the user's id

Then use

/vip [userid] [vip level]

 to set the vip level

This command can only be used by vip level 10 users. All other users will receive no response

Draw Setup

Command **/ui**

Requires VIP1

Status – This shows if the draw is ready to use
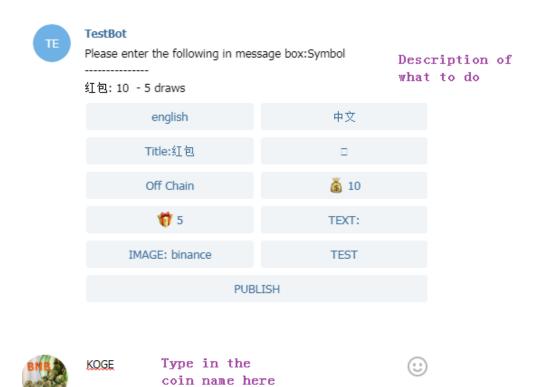

Description – A short description

Title, Symbol, Total Coins, Number of Draw, Text to Append and Image are basic parameters of the draw

Test – Test the draw in private chat

Publish – Make the draw ready in public channel

Step-by-step to setup

Change the Coin Symbol, by click on the Symbol Button

TestBot

Please enter the following in message box:Symbol

红包: 10 - 5 draws

english	中文
Title:红包	🗌
Off Chain	💰 10
🎁 5	TEXT:
IMAGE: binance	TEST
PUBLISH	

KOGE

☺

After enter the symbol in the message box

TestBot

✅Verified

红包: 10 KOGE - 5 draws

english	中文
Title:红包	Symbol: KOGE
Off Chain	💰 10
🎁 5	TEXT:
IMAGE: binance	TEST
PUBLISH	

You can change other parameters too, now we can test, by hit the test button

TestBot

红包: 10 KOGE - 5 draws

Draw!

We can make other changes after the test, let's change the image, by click the image button

TestBot

Please enter the following in message box: Enter Index Number:
0-binance 1-coins 2-TEST   The bot looks
-------------   up all images
红包: 10 KOGE - 5 draws   in image
[PUBLISHED]   folder, and
                                    gives a list
english	here 中文

Title:红包	Symbol: KOGE
Off Chain	💰 10
🧧 5	TEXT:
⬜	TEST
PUBLISH	

Now we type-in "1" in the telegram chat box to choose the "Coins" image

The image button should say "IMAGE:coins", then hit "TEST" button again:

TestBot

红包: 10 KOGE - 5 draws

Draw!

Once everything is good to go, hit the publish button. Bot should send a "SAVED" message for acknowledgement

We can also double check by using the /start command again

TestBot   5

币安链钱包:未登记
⭐vip 10
===============
[物品栏]
TEST_KOGE:4.3750
红包: 10 KOGE - 5 draws
[PUBLISHED]——This tag shows
                  it's in the
        english public room   中文

        登记钱包   登记帐户

                    刷新余额

At this point, you cannot modify the draw anymore, however, you can always use /ui command again to start a new one to delete the old one

At last, we can take this to a public channel, using /draw command

TestBot

红包: 10 KOGE - 5 draws
[PUBLISHED]

Draw!

千年 韭菜 bnb48 took 0.5 KOGE, 4 draws remaining

Comments

1. In the private test, one user can draw multiple times
2. In the public room, each user can only draw once
3. Tokens in the private test will show up in the balance with "TEST_" added to the font of token name

TODO list

- ~~Enable the user register function~~
- Bot is currently set to react once per 2 seconds. Need to double check the Telegram API limit to see what throttle limit to use to speed up the bot
- Need to find token transaction code for Binance Chain
- Need to add image upload function
- The ability to limit each VIP user's draw limit

2019/4/5 Update – Version 2.0.0.1

Enabled User Registration Function

Added Command

/summary

Requirement: Vip=10

Function: Generate a spreadsheet on all users with offline balance
